PROFIL
I am a university student specializing in Information and Communication Networks with a strong passion for IT and software development as I have a solid background in network sciences, including CCNA content, which equips me with both theoretical and practical knowledge.
On the other side I stay updated on the latest technology trends through reading and workshops, continuously expanding my skills.

FORMATION
Bachelor's degree, Networking and Telecommunications
Institut Supérieur de Comptabilité et d'Administration des Entreprises de Mauritanie
de oct. 2023 à juil. 2026
